It is your responsibility to ensure that the information you provide us is not false, inaccurate, out of date or misleading information.

We may anonymize your Personal Information so that you cannot be individually identified and provide that anonymized information to our partners. For example, we allow advertisers to choose the demographic information of users who will see their advertisements and you agree that we may use any of the information we have collected from you in non-personally identifiable form to allow our advertisers to select the appropriate audience for those advertisements.

Further, if you avail our Services, we shall retain, on our servers, details provided by you with respect to your requirements. We shall, however, ensure that we maintain reasonable information security practices and procedures in compliance with the Information Technology (Reasonable security practices and procedures and sensitive personal data or information) Rules, 2011. We shall not share your telecom bills with any third party.

For registration purposes, we may collect personal details such as your name, mobile number, email ID, date of birth, etc.

For providing certain services, we may require supplementary information, including but not limited to your residential address, financial details, credit score, credit/debit card specifics, Driving License, Voter ID and Permanent Account Number (PAN) or any other officially valid documents (OVDs).

B. Information Collected Automatically:

Whenever you interact with our website, we automatically receive and record information on our server logs from your browser including your IP address, "cookie" information, and the page you requested. "Cookies" are identifiers we transfer to your computer or device that allow us to recognize your browser or device and tell us how and when pages in our website are visited and by how many people. You may be able to change the preferences on your browser or device to prevent or limit your computers or device's acceptance of cookies, but doing so may prevent you from taking advantage of our website's best features. Our advertising partners may transmit cookies to your computer or device when you click on ads that appear on our site. This Privacy Policy does not cover cookies delivered to you by any of our advertisers.

Information collected automatically may include but not be limited to your browser type, operating system, IP address and the domain name from which you accessed the Site. In addition, we may collect information about your browsing behaviour, such as the date and time you visit the Site, the areas, or pages of the Site that you visit, the amount of time you spend viewing the Site, the number of times you return to the Site and other click-stream data. If we provide usage information (such as the numbers and frequency of visitors to the Website and to which pages within the Website) to our partners, we will only provide such data in aggregate form, in a manner that assures your anonymity. We may provide this aggregate usage information to our partners; our partners may use such information to understand how often and in what ways people use our website, so that our partners, too, can endeavour to provide you with an optimal online experience. For example, we may place a cookie on your device that records what products you have viewed on our website, and then provide that information, in non-personally identifiable form, to a third-party website, to allow such website to show you ads for similar products that are available from us or from third parties.

We may also deliver a file to you through the Website (known as a "web beacon") from an advertising network we have contracted with. Web beacons allow advertising networks to provide anonymized, aggregated auditing, research, and reporting for us and for advertisers. Web beacons also enable ad networks to serve targeted advertisements to you when you visit other websites. These beacons may, for example, log that you have viewed a certain product on our website and then show you an ad for similar products when you browse to another website. Because your web browser must request these advertisements and web beacons from the ad network's servers, these companies can view, edit, or set their own cookies, just as if you had requested a web page from their site. Many ad networks participate in the Network Advertising Initiative ("NAI"), a cooperative of online marketing and analytics companies committed to building consumer awareness and establishing responsible business and data management practices and standards, and such NAI members may allow you to opt-out of cookies or beacons they deliver. Again, we do not control the policies of any third parties, including advertising networks.
